

ANGELA MAE M. TAUYAN

IT Fresh Graduate

+63-966-894-7402 angeltauyan2@gmail.com Annex 37, Paranaque City

<https://www.linkedin.com/in/amtauyan/>

SUMMARY

Information Technology graduate specializing in Mobile and Internet Technology, with strong passion for front-end design, UI/UX, and a foundation in cybersecurity and Access Management.

Skilled in using Figma for wireframing and prototyping, and experienced in developing dynamic websites with CodeIgniter and MySQL. Proficient in HTML, Bootstrap, and PHP, and familiar with React Native for mobile development. Capable of basic hardware programming using the Arduino language. Internship experience includes managing endpoints and employee access using UEM, TrendMicro, Proofpoint, Active Directory, and O365 Admin.

Motivated to build a tech career that combines creativity, functionality, and security.

EDUCATION

Bachelor of Science in Information Technology

Asia Pacific College, Makati City | 2022–2026

- Specialization in Mobile and Internet Technology
- Magna Cum Laude

WORK EXPERIENCE

Cybersecurity Intern, 2GO | Pasay City

Nov 2025 – Jun 2026

- Performed endpoint isolation and remediation using Trend Micro Apex One.
- Investigated phishing and suspicious email reports through Proofpoint.
- Developed deployment packages for automated installation and removal of Trend Micro endpoint protection across enterprise devices using UEM.
- Assisted with Active Directory user management, access requests, and security administration.

PROJECTS

Arduino Programmer – AlwaysOnTrack, Asia Pacific College | Makati City

Aug 2025 – Oct 2025

- Coded the arduino device of our capstone project for our own health monitoring system.
- Became the project owner to manage the tasks of the whole team.
- Designed the device to be used for this project and 3D printed it.

Arduino Programmer – ParkSense, Asia Pacific College | Makati City

Feb 2023 – Jun 2025

- Created the code for the arduino part of our capstone project for the automated parking management system.
- Became the project owner that checks the backlogs of the group.
- Commented about the UI/UX design of our system.

CSPC Campus Guide | Nabua City

Oct 2024 – Dec 2024

- Sequenced the flow of the mobile application to match the objectives of the project.
- Programmed the whole system of the CSPC Campus Guide using React Native and SQL Database.
- Designed the UI/UX of the mobile application to fit the school’s representing colors.

SKILLS

Software Packaging and Deployment • Endpoint Management • IT Asset Management • Access Management • Website Development • Mobile Development • Communication Skills • Analytical Thinking • Time Management • Attention to Detail Teamwork
